

Car Wash Solution

LILINs Car Wash Security Solutions are the best route to go when looking for an all around high performing security system. Our reliability and affordability make us one of the leading surveillance camera manufacturers.

Human & Vehicle Detection

Human & Vehicle Detection can be used in practical applications such as monitoring wash tunnels for personnel or obstructions.

License Plate Recognition

License Plate Recognition can be used to monitor registered guests or vehicles and allow unrestricted access to wash tunnels.

Restricted Area Monitoring

LILINs smart features send alerts when non authorized personnel enter a restricted area, easily monitor your property and keep out unwanted guests.

AI Analytics

Smart programming allows for the use of incredible features such as Restricted Area Monitoring, License Plate Recognition, Human & Vehicle Detection and many more!

TV Wall Solution

Don't miss a thing with our TV Wall Solution, up to 6 tvs will give you the highest level of visibility for your cameras.

High Performance Cameras

Our Cameras are manufactured with the best materials, not only are they weather resistant but they outperform and outlast the competition with features like IR night vision, optical zoom and panning, 4K recording and 3D noise reduction.

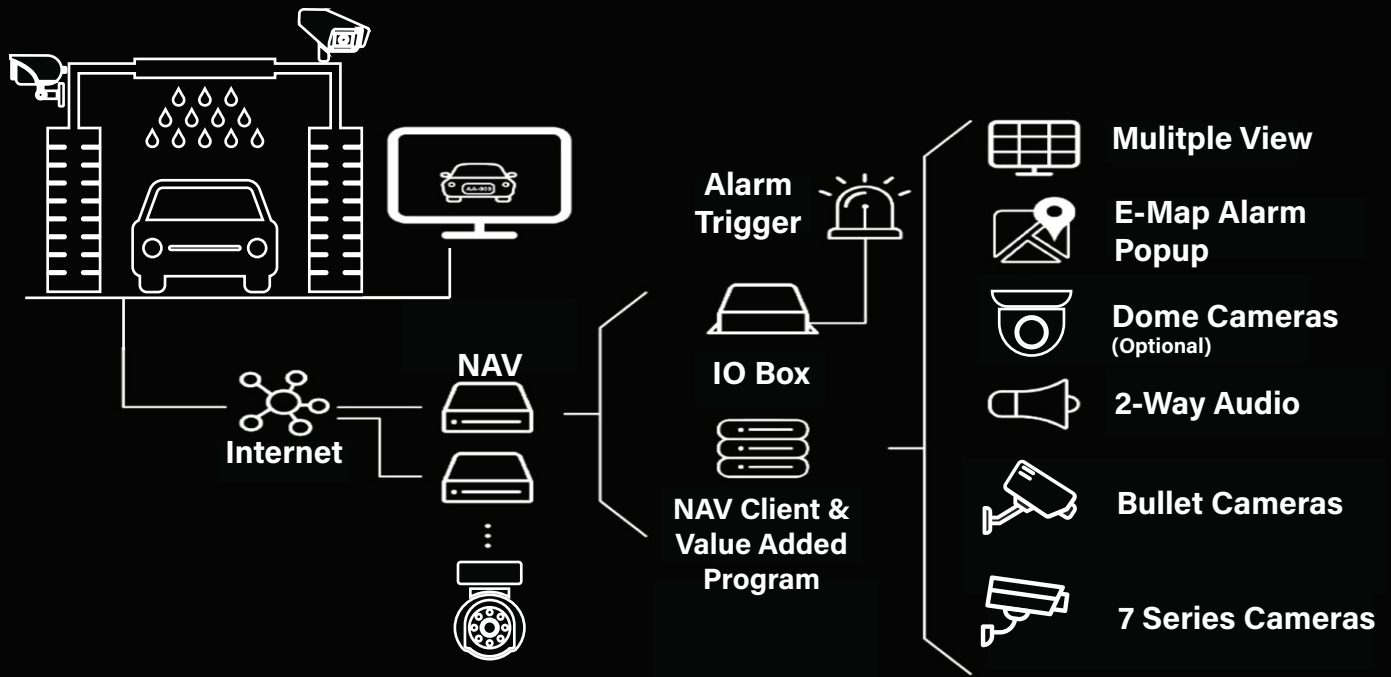

Number Counting

Number Counting can be utilized by car washes to detect the number of cars coming through the wash on a daily, weekly, monthly or yearly basis.
