Home Owners Association

LILINs HOA Solutions are the best route to go when looking for an all around high performing security system. Our reliability and affordability make us one of the leading surveillance camera manufacturers.

AI Analytics

Smart programming allows for the use of incredible features such as Smoke Detection, License Plate Recognition, Human & Vehicle Detection and many more!

Home Automation Integration

LILIN technology easily integrates with home automation software, our cameras can detect and alert when potential problems arise.

High Performance Cameras

Our Cameras are manufactured with the best materials, not only are they weather resistant but they outperform and outlast the competition with features like IR night vision, optical zoom and panning, 4K recording and 3D noise reduction.
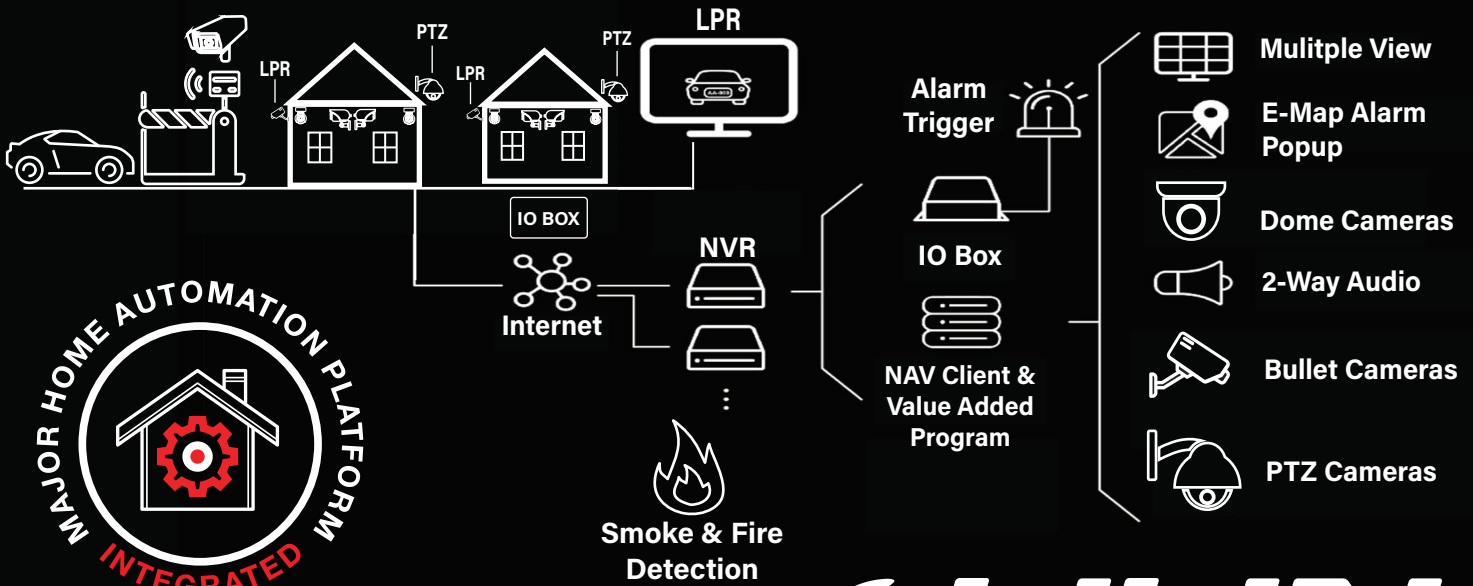

Prime Monitoring Experience

With smart AI features like License Plate Recognition as well as Human & Vehicle Detection, LILIN technology improves the Home Owners Associations ability to keep neighborhoods safe.

Human & Vehicle Detection

Human & Vehicle Detection can be very useful for home automation, get real time alerts when someone approaches the property.

License Plate Recognition

License Plate Recognition can be used to monitor registered guests or vehicles and allow access to parking, opening or closing of gates in gated communities.

Smoke Detection

Smoke can happen anywhere, anytime and often without anyone noticing initially, our AI smart features allow our cameras to detect smoke from rising fires quickly as long as it is within view.
