LILIN

Smart Parking Solution

LILINs Smart Parking Solutions are the best route to go when looking for an all around high performing security system.

AI Analytics

Smart programming allows for the use of incredible features such as LPR, Human & Vehicle Detection, Number Counting to monitor available spaces and many more.

TV Wall Solution

Don't miss a thing with our TV Wall Solution, up to 6 tvs will give you the highest level of visibility for your cameras.

7 Series AI Smart Cameras

Our 7 Series bullet cameras have a wide field of view with high performance video imaging up to 4k which means clear picture even in low light situations such as indoor or underground parking lots, they also utilize our AI features.
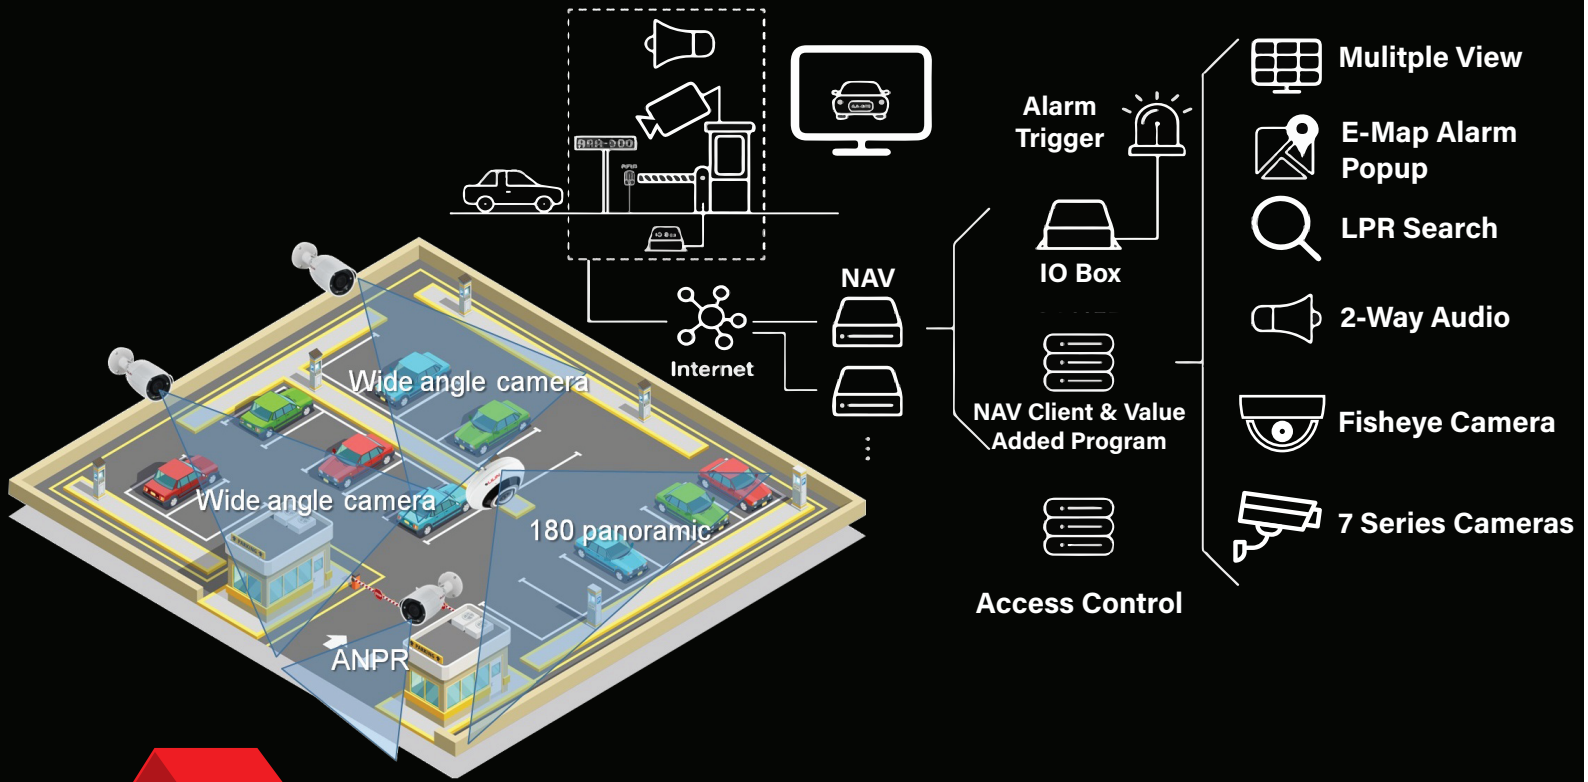

Better Access Control

With smart AI features like License Plate Recognition as well as Human & Vehicle Detection, LILIN technology improves access points on or around your property.

Human & Vehicle Detection

Smart Features such as Human & Vehicle Detection can be used to raise or lower control arms for entering or exiting the garage.

License Plate Recognition

License Plate Recognition can be used to monitor registered guests or vehicles and allow access to parking.

Number Counting

Easily keep count of available spaces with smart features like Number Counting.
