LILIN®

LILIN CAMERAS

Starvis 4K P-Iris Auto Focus IR AI Smart IP Camera | Z7R8182X2-P

LILIN Smart IP cameras paired with EDGE AIDA licenses detect license plates (EDGE LPR), car color and car make (EDGE CARMAKE) to surveil car entry to facilities.

Fisheye Camera | F2R36C2IM

Fisheye camera provides 360 detection covering all angles for surveillance in grow rooms, warehouses and dispensaries.

Multi-sensor Camera | PMH-MSR432X3

Multi-sensor cameras show multiple angles providing 360 surveillance for facilities.

LILIN RECORDERS

NAV 108 CH Recorder | NAV1108C

NAV recorder has a 108 channel video surveillance server which supports LILIN IP & PTZ cameras, DVRs and NVRs for live display, playback and recording.

16 CH POE 4K Standalone Network Video Recorder | NVR6216E

NVR shows camera footage with up to 16 channels lowering labor costs for surveillance. NVR can be installed with up to 16TB HDD storage.

Mobile NVR | NVR408M

Mobile NVR provides you with 24/7 continuous footage recording during product transportation.

WINLAND SOLUTIONS

Insight

Winland Insight

Real-time, cloud-based, critical-environmental monitoring for grow rooms, warehouses, and dispensaries. Subscription-based INSIGHT is sold separately.

Reporting & Analytics

Robust reporting capabilities with configurable and custom reports that can be accessed on-demand.

Data Logging

Insight's cloud-based data can be viewed online, via real-time reporting, scheduled email, pdf reports or downloaded csv format.

The Right Response

Develop customized, step-by-step response plans for all types of accidents. System will automatically generate an incident report that is distributed immediately after the response plan is completed.

Exception Alerts

When a sensor falls outside of its threshold, notifications can be sent to recipients in any of the ways the user configure their notification preferences.

- Email/Text Message
- Online Dashboard
- Dry Contacts to local alarm panel
- Local Audible
- Visual Alarm

EnviroAlert Professional® - Gateway

EAPro®-GTWY

The EAPro® - Gateway has a touchscreen LCD with real-time data display, remote access to programming, data logs, alarm and event data, monitors up to 34 zones (4 hard wire and 30 wireless), and has alarm notification.

Wireless Sensors/Transmitter |

EAPro®-WTS, EAPro®-WHS, EAPro®-WMFT

Accessories for the EAPro®-Gateway

- EAPro®-WTS monitors ambient room temperature.
- EAPro®-WHS monitors ambient room humidity.
- The EAPro®-WMFT accepts the wired temperature sensors for wireless monitoring (sensor sold separately).
